Blood Pressure Record				
What do blood pressure numbers	The higher (systolic) number is the pressure while the heart is beating.			
indicate?	The lower (diastolic) number is the pressure when the heart is resting between beats.			
What is a "normal" adult blood	Less than 140 over 90			
pressure reading?				
When should you call your doctor?	A systolic pressure of 130 to 139 or a diastolic pressure of 85 to 89 should be watched carefully. Let your doctor know if your blood pressure is equal to or more than 140 over 90.
